

The Art of Shutters

 **SHADE-O-MATIC®**
Imagination·Innovation·Inspiration

Shutters With **Style**

You can always count on shutters to help make the statement you want your home to make. Depending on the style and features you choose, shutters can add a touch of architectural elegance, a bold accent or the warmth that says “home.”

Shade-O-Matic® custom-made shutters give you a beautiful range of options to make your home’s look truly your own. And a Shade-O-Matic® authorized Window Covering Specialist will work with you to ensure perfect installation and give you all the help you need to create the ideal atmosphere.

Discover Shade-O-Matic® shutters and make your statement with style.

The Traditional Beauty of Grandeur® Woodalloy with NuTech® Finish

Nothing warms a room like the look of wood. Grandeur® Woodalloy shutters have a comfortable, natural beauty that can add a touch of old-world elegance to your home. And under all that beauty are advanced engineered materials that will give you decades of outstanding performance.

Customize your Grandeur® shutters with the colour, controls, hinges and louver size you like best and you'll create the room you've always dreamed of.

Finished to last

Our strong, scratch-resistant NuTech® finish is smooth to the touch and lustrous to the eye.

Great colour choices

Grandeur® shutters are available in soft tones and wood tones and you can choose from four hinge colours.

The Sophisticated Elegance of Polysatin with DuraLux® Finish

You're looking for shutters to match the elegance and sophistication of the rest of your home décor. Our Polysatin shutters offer leading-edge design combined with exceptional durability. Our Tropics® and Seaview® shutters are flexible enough to be used in any room in your home. They're especially good in rooms – such as kitchens, bathrooms and sunrooms – where high temperatures or humidity are an issue.

Our Tropics® Polysatin shutters feature our unique patented gear system, which eliminates the tilt-bar. Our Seaview® shutters have a tilt-bar on the front or back for a more traditional look.

Lasting construction

Our UV-resistant Polysatin will not be warped by moisture, cracked by heat or discoloured by sunlight.

Finished to last

Every component is impregnated with our DuraLux® smooth matte finish and never needs refinishing.

DuraLux® Finish

The Personal Touch

All Shade-O-Matic® shutters are made to order, so you can always be sure they'll fit your windows perfectly. And when you choose Shade-O-Matic®, you'll work with an expert. A consultant will come to your home, measure your windows, and get to know you and your sense of style. Then, they'll help you choose the shutters that are right for your room and the look you want to create.

Arch and Specialty Shapes for Polysatin Shutters

Turns specialty shapes into stunning design accents.

Bay/Bow Windows

Custom shutters add style and beauty to bay or bow windows.

Bi-Pass and Bi-Fold Systems

All of our Shade-O-Matic Shutters Offer You –

An Environmentally Friendly Solution

Our shutters are part of our GreenProtect™ program for healthier living and are both GREENGUARD Indoor Air Quality Certified® and GREENGUARD Children & Schools Product Certified®.

A Unique Louver Design

Our unique engineered shape allows for maximum view when louvers are open and have an optimum R-Value when fully closed. Acoustical properties also provide noticeable noise reduction.

A Range of Louver Sizes

Choose from our 2½", 3½" and 4½" louvers.

Optional Split Controls

With the Gear or Tilt-Bar controls, this option allows you to control the top and bottom louvers independently, without a divider rail.

Energy Efficiency

Shutters increase thermal efficiency winter and summer and provide 99% UV protection.

Flexible Tracking Systems

Our Bi-Pass and Bi-Fold quality track systems enable you to enjoy beautiful shutters on patio doors and large window expanses.

Frame Options

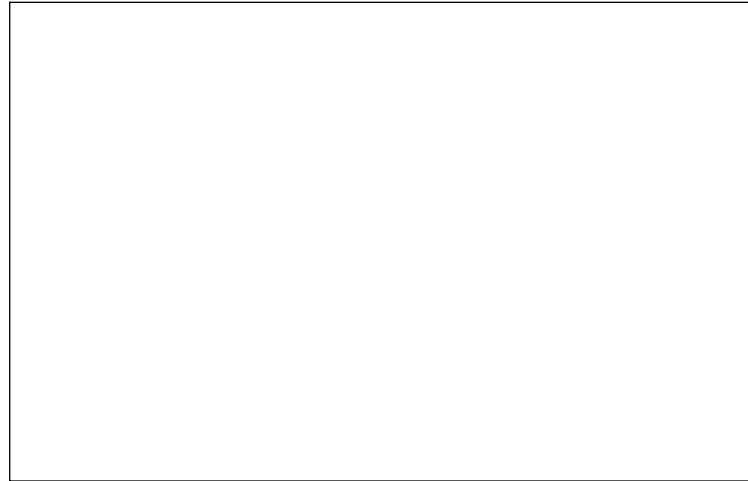

We have stunning over-mount decorative frames to blend in with any décor. Various frames are available that are ideal for inside- or outside-mount applications.

Child Safety

No cords mean a safer home for children and pets.

Like you, we believe that we are all responsible for preserving our environment. GreenProtect™ represents our commitment to this important goal, both in how we make our products and how we conduct our business. If you're concerned about your indoor environment or have family members who are sensitive to certain substances, look for our GreenProtect™ symbol.

Fashionable. Affordable. Remarkable.

Shade-O-Matic® is Canada's leading designer and manufacturer of high-fashion, high-quality window coverings. We continue to add more styles and options for you to choose from, yet one element remains the same: all of our products are custom-made to ensure a perfect fit each and every time. It's easy to see why we can provide the perfect solution for every window in your home.

All Shade-O-Matic® products are proudly manufactured in Canada with child safety features and are backed by our Limited Lifetime Warranty.
