

Cassettes are now back in style

QMotion® Roller Shades with Cassettes are powered by the same innovative battery saving technology used in all of our roller shades. This Cassette was designed for a soft elegant look with easy installation and design in mind.

- Fully enclosed shade system covers top and back with aluminum, and shade rises fully into cassette.
- Installation is a "snap" with simple spring installation clips.
- Curved front cover design.
- Light blocking wool pile integrated into the top for more complete finish and better light management.
- Coordinated front cover in 5 standard laminated colors. White, Black, Bronze, Tan and Silver.
- Painted or fabric wrapped hem bar.
- Easy access to batteries in the shade tube through pivoting front cover.
- Compatible with Qmotion® Automated and Qfree shades (pull tassel recommended with Qfree shades in a cassette.)
- Compatible with all QMotion® controls.
- Available on shades up to 120 inches x 96 inches, with limited fabric exceptions.

One step installation of the entire system with the cassette.
