

PRODUCT INFORMATION

- Elegant and functional decorative channel rod
- Aluminum rod with a powder coated finish
- Available in five designer colours
- Uses ball bearing carriers for a continuously smooth draw
- Compatible with both regular and ripplefold carriers

FEATURES

- Has the look of a decorative rod but functions as a hand draw track
- Top mount brackets that do not interfere with the movement of the glides
- Multiple bracket styles available including adjustable and double brackets
- Can be custom finished

FOR USE IN

- Hospitality, residential, offices, healthcare or wherever a stylish and functional track is required.

BENDING / CURVING

- Rods can be custom bent for bay and bow windows.

Textile Trimmings has served the interior design and window covering industry in North America for the past eighty years. We are a wholesale distributor of fine drapery hardware, track systems and workroom supplies with a significant supply of stock being maintained in our warehouse. In addition to our vast selection of drapery hardware, Textile Trimmings offers a full range of custom services thanks to our highly trained technical staff. Custom painting, bending, assembly and motorization are just a few of the custom services that we offer for our products.

At Textile Trimmings we have searched the world over so that we may offer an extensive selection of products in unparalleled quality. We take pride in not only offering superior products, but also in offering excellent customer service. Our knowledgeable customer service staff is available to offer project consultations and will work with you to solve all of your drapery dilemmas.

Always on the cutting edge, Textile Trimmings is your drapery hardware specialist.
