NEW HIGHLY INNOVATIVE SYSTEM

newton

high-speed lite-lift®

THE INDUSTRY'S MOST ADVANCED MANUAL SYSTEM

Altex® once again innovates with the most intuitive and elegant non-motorized solution on the market.

Designed and manufactured in

Ideal for all your residential, commercial and architectural projects

ALTEX® PROUDLY ROOTED IN CANADA

AN ATTRACTIVE AND SOPHISTICATED SYSTEM

Intuitive, silent and built to last, the new Newton High-Speed Lite-Lift® system will soon be featured on our most beautiful residential and architectural products.

FEATURES

- No visible cord or chain
- Raise and lower shade quickly using the wands
- Smooth movement using shade's inertia to extend movement
- Minimal raising effort required—the lowest on the market, even for the largest shades
- Newton Free Lift system—lower shade by bottom bar 1
- Alignment guide makes installing shade in the bracket system easier
- Option of adding a device to hold magnetic wands in place 2

ADVANTAGES

- Safe and elegant design 3
- Raise and lower with ease, and stop exactly at the desired position
- Designed and manufactured in Canada
- Each shade is custom calibrated at our plant, so no adjustment is necessary during installation
- An Altex® exclusive
