# **Limited Lifetime Warranty – Inpro WT Shade Systems**

#### **Third Party Items**

- Fabrics manufactured by third parties will be covered under their respective warranties\*

  Mermet: https://mermetusa.com/site/user/files/1/mermet-fabric-limited-warranty.pdf

  \*Warranties for fabric not listed above can be provided by our Customer Service upon request.
- Components and parts manufactured by third parties, may be similarly excluded from the limited warranty and Inpro makes no representation or warranty regarding such products.

#### **DISCLAIMER OF IMPLIED WARRANTIES**

EXCEPT FOR THE APPLICABLE LIMITED WARRANTIES SET FORTH ABOVE, INPRO MAKES NO WARRANTY WHATSOEVER WITH RESPECT TO THE PRODUCTS, INCLUDING ANY (A) WARRANTY OF MERCHANTABILITY OR (B) WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE WHETHER EXPRESS OR IMPLIED BY LAW, COURSE OF DEALING, COURSE OF PERFORMANCE, USAGE OF TRADE OR OTHERWISE. INPRO DISCLAIMS ALL, AND ASSUMES NO LIABILITY FOR, THE NONPERFORMANCE OF INCOMPATIBLE SYSTEM COMPONENTS OR ACCESSORIES OF ANY PRODUCTS.

#### REPAIR OR REPLACEMENT OF DEFECTIVE PRODUCTS

In the unlikely event a product is found to not meet the applicable Inpro WT Shade Systems Limited Lifetime Warranty (subject to the conditions set forth in the Inpro Terms and Conditions of Sale), we will replace or repair any item found to contain material defects in material or workmanship at the time the product was manufactured by us. However, if a product is found to have been improperly installed, abused, altered, repaired, or subject to any use other than that which it was originally intended, the product may no longer be eligible for a warranty claim. In no event shall Inpro be liable for transportation costs to return the product, costs of removal or reinstallation of the product or incidental or consequential damages. Any alteration or repair not performed or authorized by Inpro will void this warranty. Some states do not allow the exclusion of consequential damages, so the above limitation or exclusion may not apply to you. This shall be the sole remedy of the purchaser under this warranty.

# **Limited Lifetime Warranty – Inpro WT Shade Systems**

#### **HOW TO MAKE A WARRANTY CLAIM**

If you have a product that you believe is defective due to a material defect in the material, workmanship, or craftsmanship of the product, please follow these steps to make a warranty claim under the Inpro WT Shade Limited Warranty:

**NOTE TO END USERS: Contact your shading installer or dealer.** It is important and strongly advised that you have your product inspected by a professional shading installer. Many times, a professional installer will be able to make an adjustment or repair on-site and will not have to remove and send back your product. However, if your installer is not able to repair the issue, the product must be removed and sent back to us for inspection. It is important that the removal and handling of the shade be done by a shading professional in order to ensure that no additional damage is done that could void your warranty.

- 1. Locate the order number associated with the product: In order to make a warranty claim, you MUST provide the original order number (often times called the "W Number") for the defective product. This number will begin with a "W," and can be found on the ID tag located on the aluminum tube of the shade (access by completely unrolling the shade fabric and exposing the tube). It is important that the removal and handling of the shade be done by a shading professional in order to ensure that no additional damage is done that could void your warranty. We also recommend taking a photograph of the tag, so that you or the original purchaser can continue to refer to it later or to send to us.
- **2. Contact us Immediately:** Once you have obtained the order number, Inpro should be contacted by the original purchaser to make a warranty claim. The original purchaser should call Customer Service at (877) 294-3580 or email WTcustservice@inprocorp.com. Once Inpro has recorded the claim, the original purchaser will be furnished with a Return Goods Authorization Number ("RGA"). This number will be used to track the status of the claim and will be used to identify any products that have been returned to us.
- **3. Return the defective items to us:** In order to repair or replace the defective item, we will need to inspect the product to determine the cause of the issue. In order to do so, the shading product must be uninstalled and packaged for shipping. If you do not feel comfortable performing such uninstallation, please contact your shading installer for help. Inpro will not be liable or responsible for the costs or potential damage of the uninstallation, the materials used to package the product, or the shipping costs to return the product to us. All boxes and packages in regard to the claim MUST be marked with the corresponding RGA number. Items received with no RGA number will be returned to sender. Please send all returns to: WT Shade, 12830 Virkler Dr Suite 500, Charlotte, NC 28273 ATTN: WARRANTY RGA# \_\_\_\_\_\_\_.
- **4. Inspection of the Return:** Within a reasonable time after receipt, we will inspect the returned product and determine the nature of any defect. We will then contact the original purchaser to discuss the results of our investigation.

**Questions?** If at any time you have questions about this warranty or how to make a warranty claim, please contact WT Shade Customer Service at (877) 294-3580 or email WTcustservice@inprocorp.com.

# Care, Clean-up and Maintenance:

## Inpro WT Shade Systems

Once installed, Roller Shades require very little care and maintenance. In order to prolong the life of your shades and keep them looking beautiful, some routine dusting may be required. Dust and dirt on your solar fabric can affect the color, the reflective properties, and even clog the space between the threads and effect the openness, and so removing it will be the main requirement in care.

#### **FABRICS**

- •Gently remove dust from the surface of the fabric by using a feather duster or soft cloth.
- •Use a low suction vacuum with soft attachment for hard-to-reach areas or to remove dust between threads.
- •Compressed air may be used to blow dust away from between threads.
- •For spot cleaning, use a soft damp cloth. Mild detergent may be added for more stubborn spots. Shades should be fully extended and allowed to dry completely before being operated.

Care Tip: Gently rub a non-static dryer sheet over your shade material to help prevent the collection of dust.

- •NEVER use harsh detergents or abrasive cleaners, such as alcohol, bleach or even baby wipes, which may damage, scratch or discolor the fabric.
- •NEVER use a cloth which contains magnets, like many commercially sold dusting mitts. Magnets can damage certain types of fabric backings or cause motor malfunctions.
- •NEVER clean windows with shades lowered. Always roll the shades up and away from the glass so that spray mist from glass cleaners does not damage the fabric.
- •NEVER install shades in areas that are exposed directly to the elements. All WT Shade products are intended for INDOOR USE ONLY.
- •NEVER rub fabric so hard as to damage the weave. Blotting is better.
- •NEVER remove fabric from the shade tube without first contacting WT Shade. Removing the fabric may void your warranty

#### **HARDWARE**

For general cleaning, use Antibacterial Fantastik® All Purpose Cleaner Heavy Duty with a clean, lint-free cloth and wipe clean. Repeat process if stains remain, and rinse with water if cleaning product residue remains. For all other cleaners and disinfectants, reference the product label to confirm use on plastic or powder coated metal material to avoid damage or discoloration.

Guide tracks may be lightly sprayed (inside) using silicone lubricant only. NEVER use petroleum-based lubricant.

NOTE: Any reference to a specific branded product does not constitute an endorsement by Inpro<sup>®</sup>. No long-term testing has been performed.
