## EFFORTLESS ADDITION TO YOUR CONTROL4 SMART HOME

If you already have Control4 and are running the latest version of Smart Home OS 3, Neeo can be added to your system without a visit from your Control4 Smart Home Professional. Simply order the Neeo remote from your Pro and, once it arrives, connect it to your home's Wi-Fi and select the primary room where it will be used. Voila! Your Neeo is automatically connected to your Control4 system.

## NEW TO CONTROL4? GET STARTED TODAY

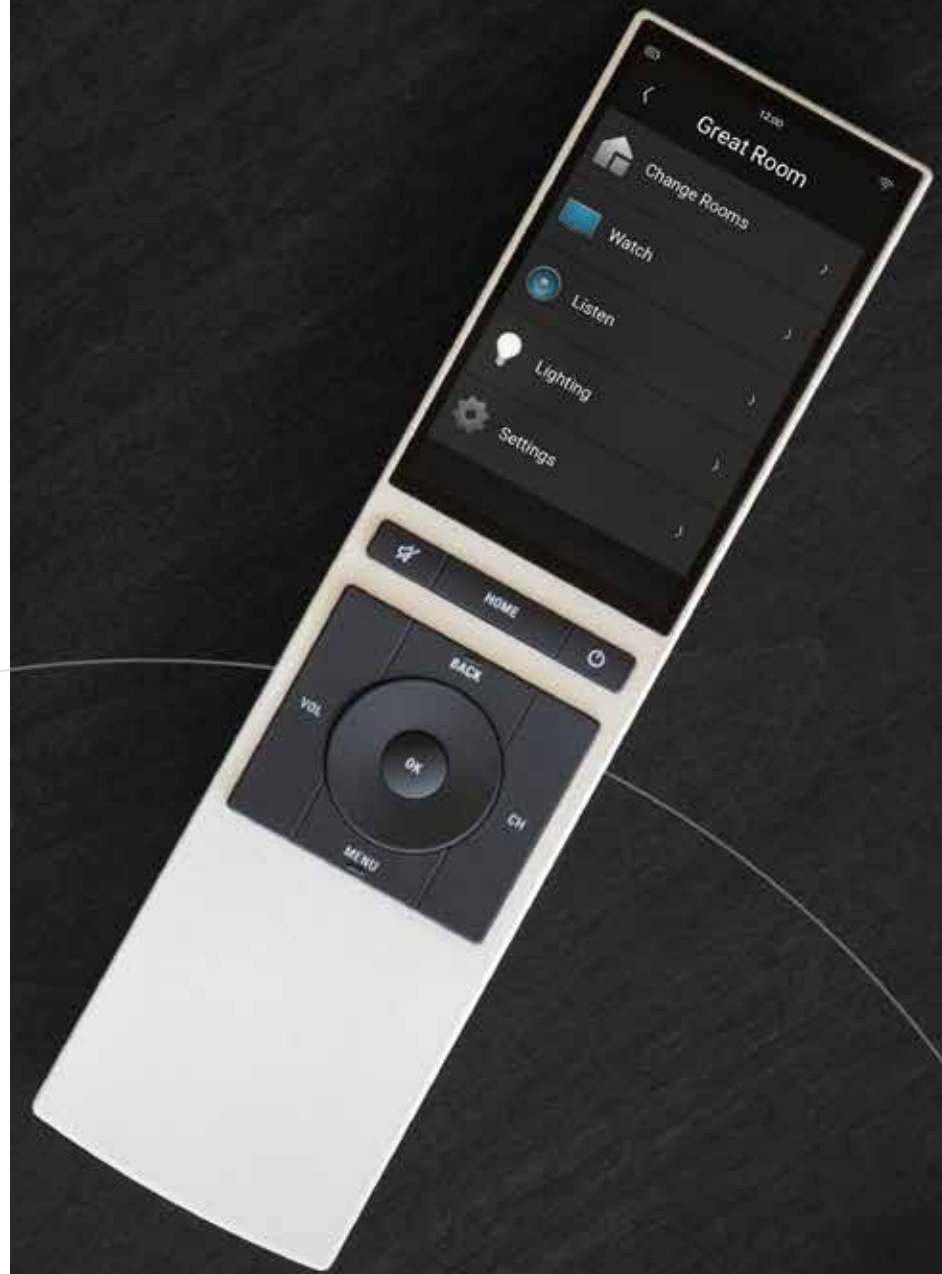

The award-winning Control4 Smart Home OS 3 delivers a fluid interface thoughtfully simplifying your home with personalized interactions that are easy and enjoyable for the whole family to use. Ask your Control4 Smart Home Professional for a demonstration.

**HELLO NEEO**  
WELCOME TO  
SMART HOME OS 3

Control4®

## BEYOND THE UNIVERSAL REMOTE

Traditional universal remotes are designed to replace all others into just one that operates many of the audio/video devices you have in your media cabinet. Once you've lived with one, you know how convenient it is to get rid of the clutter and control all of your entertainment with one simple device.

### Well, we've raised the stakes...

Control4 works with tens of thousands of consumer electronic devices from the world's leading brands, so our remotes are able to communicate and control everything outside of your media cabinet, as well. The newest remote added to our family of interaction devices just might be the most beautiful remote you've seen yet, and it combines full home control smarts with the finesse and ease of use you deserve.

### Meet, Neeo.

## ORIGINAL. FRESH. NEW.

The Neeo Remote is thoughtfully engineered to control your home media experience and unify the smart home by leveraging the power of Control4 Smart Home OS 3. Enjoy fast access to and control of the smart home experiences and devices you use most, such as your favorite television and music stations, streaming services, playlists, lighting scenes, door locks, and more.

## POWERFUL. ELEGANT. SIMPLE.

Inspired and crafted by experts in Swiss design, Neeo meets the demand for beautiful products to complement the homes they live in. Neeo is a sleek, refined remote with a modern design and a mix of both tactical buttons and a high-resolution, graphical glass touchscreen interface. Neeo's weight, balance, and texture were all meticulously considered to feel comfortable in the hand.

- 3" high-resolution, bright touchscreen
- One-touch access to your "Favorites"
- Prominently displays currently streaming music or tv source
- Sleek, aluminum body in black or silver finish
- Weighted base charges Neeo and allows for quick pick-up when ready to use
- Frequently used buttons keep your eyes on the movie, not the remote
- Connects through Wi-Fi

## INTELLIGENT WAY TO WATCH

Neeo is dedicated to providing a more enjoyable watching experience. Switch between video sources, such as the Roku, AppleTV, Blu-ray, satellite, or even gaming consoles—effortlessly.

Favorites are front and center with familiar graphical navigation using one-touch icons for ESPN, Netflix, CNN, FOX, HBO, or any of the family's favorite programs.

The graphical interface provides easy scrolling and a simple tap to select. Sculpted, tactile buttons provide the most commonly used controls like volume and mute, while the OK button doubles as a play/pause.

## WHOLE HOME CONTROL IN THE PALM OF YOUR HAND

Neeo provides an elegant interface to control your entire home. Turn on/off individual lights, activate lighting scenes, even lock the doors—right from the comfort of your couch. Access any television from any room or queue up your favorite streaming music service to begin playing throughout the house.
